MARKET HAS GOOD RALLY

Coppers Are Very Strong—Sentiment Regarding Price of Metal Temporarily More Hopeful—Market Still Very Dull—Few Coppers Offered.

(By L. N. Kinsey)

GLOBE, April 22.—The market this morning opened with a swing upward in prices and continued its upward course, closing at highest prices of the day. Our advice from the east tonight is that sentiment regarding the price of the metal is temporarily more hopeful, but that the market is still very dull and indications are that we will have swings upward with many setbacks, but that the general course of the market will be upward. We believe that advantage should be taken of this bulge within the next two or three days to sell stocks with the view of getting them back cheaper.

Gates of New York says: Stocks ruled firm today. There was no special news, but better feeling prevailed along the line and while large interests are apparently doing little, yet it is thought they helped the rise with moderate operations and are in favor of higher prices. Rally has been quite considerable, however, and we would wait for a small decline before buying them. Amalgamated was accumulated all day long, rallying steadily without a setback, closing at the highest.

Paine says: Copper Range and Mohawk were the favorites in Boston today. Buying of both was extremely good. The disappointment of North Butte statement not yet forgotten and stock seemed heavy, but believe it a good buy around present prices. We advise picking up Atlantic under \$15.

(By H. H. Bru Co.)

GLOBE, April 22.—The market was stronger today than it has been for weeks. Copper selling around 25 1/2 to 25 3/4 has its market effect, and our opinion is stocks and copper will strengthen and continue to go up for some time. Old Dominion showed as much strength as any, opening \$54 and advancing to \$55.12 bid and \$55.50 asked at the close. Mohawk opened \$79 and advanced to \$84.50 bid and \$85 asked in the close. All of the New York stocks advanced from one to three points and closed strong.

We would advise purchase of all good copper stocks on any weakness shown, feeling sure a snug profit can be made in a very short time.

From good information I hear the same large ledge found on the 14th level has been struck on the 13th level of the Old Dominion, showing that this ledge is no small affair. This stock should advance and be selling around \$70 soon, unless something unforeseen happens.

Another good body of ore was found in the Superior & Boston mine today, and with the present development this stock should be selling around \$8 instead of \$4. We look for this stock to go up and stay up.

GLOBE GIRL A HUNTER

Anna Beals Kills Two Black Bears in Mountains

Miss Anna Beals, a charming young lady of Globe, who spent a week or ten days in Safford a guest at the Hotel Jones, is now rustivating at the Gibson mills in the mountains south of the city, says the Safford Journal. In a letter to a Safford friend Anna tells of having shot two large black bears after an exciting experience. She states that deer are very plentiful in the mountains near the mills and that they are so tame that a person can closely approach them. The snow in the woods, so Miss Beals says, is very deep, and she has enjoyed the novel experience of picking wild flowers with one hand, while she gathered a large snowball with the other. She expects to remain in the mountains for several weeks yet and is arranging to entertain a number of Safford friends there. Before returning to her home in Globe Miss Anna will again visit Safford.

Automobiles in the Desert

Camels, the old ships of the desert, will soon give way to the new ships of the desert—automobiles. The succession, like that of steam greyhounds to clipper ships at sea, has to meet prejudice and conservative habit, but the conquest by the automobile of the sand wastes of Nevada is an accomplished fact. Here, to be sure, it was not the camel, but the burro and the stage coach that had to yield. Under the heavy cars the sand hardens into smooth tracks, and with a little work good motor car roads can be made. Several toll roads have been built and more are promised. Rich miners and others who use motor cars for business and pleasure are behind the movement to construct roads to connect all important points; and the commercial development of southern Nevada is assured.—Youth's Companion.

Anaesthesia Is a Boon

McKanna Liquor Cure Serves SAME PURPOSE WITH DRINKING MEN.

Did you ever have your finger cut off? If you did you took chloroform to kill the pain. If you didn't you played the fool. Any man is a fool to strain the nerves to the breaking point. You probably had the nerve to sit down and let the doctor cut your finger off, but what's the use of all that suffering?

So it is with a man who drinks. If he don't want to quit, all well and good. But if he does want to quit boozing, then the thing to do is to take treatment. There is no use straining your nerves by trying to quit without the treatment.

The McKanna Liquor Cure is an improvement on the old Keeley Cure. The McKanna cure uses no dangerous hypo-

dermics. It is a purely vegetable preparation that is taken internally, that neutralizes the alcoholic poison and afterward tones up the system. A man feels ten years younger after taking the cure, and it will easily add ten years to his life. Isn't it worth investigating, anyway?

A temporary sanitarium of the McKanna Liquor Cure has been established in Globe with offices in rooms 14 and 15 of the Max Lantin building. By taking treatment while this office is in Globe a man saves the time and expense of a trip to Phoenix.
